

BBS 3m Expandable Titan Barrier

An innovative approach to cordon off busy public areas, such as Department Stores, Hospitals, Walkways and Forecourts.

Features:

- When closed the Barrier is a very compact 550mm
- Extremely practical for transporting and carrying
- Length flexibility due to the expanding action
- Two feet options available:
Standard (Graphite)
Anti-trip - painted in a high visibility yellow and featuring two reflectors per foot for extra visibility
- Quick and easy for use on uneven ground
- Unique clip design holds the barrier together for safe transportation

Benefits:

Due to the overall weight of only 10.5kg the Barrier is light enough to handle with relative ease but stable enough to hold itself upright in windy conditions, rough ground or the hustle and bustle from the public. The anti-trip feet are ideal for low lighting areas due to the added reflectors.

Recommended applications:

Hotels & Resorts, Leisure Centres, Cinema Foyers, Schools & Colleges, Railway Stations, Air & Sea Ports, Industry, Maintenance & Factory Locations.
